

Course Registration

At the beginning of second semester (January), students will receive a Course Registration Guide and a registration sheet. Students, along with their parents, should choose courses from the guide that are aligned with their four-year plan of classes.

Steps for Registration:

1. Choose courses from the Registration Guide.
2. Mark the choices on the Registration Sheet. Some classes require a teacher's signature. Some classes are pre-selected by a teacher based on a student's grade during the current year.
3. Bring the Registration Sheet to the designated class that will be going through the registration process. This is sometimes during a social studies class. Counselors will be there to assist.
4. Course lists are provided in the spring for students to check for accuracy
5. Students receive schedules at Check-in in August.
